

Circular Silencer

- Galvanized sheet metal on the outside and perforated on the inside
- 50kg/m³ glass/rock wool is used
- The insulation is 5 or 10 cm.
- Silencer lengths are produced as 500, 1000, 1500 mm.
- Duct Connection is made with gasketed sleeves mounted on both sides.

YS - 050 - 200x1000 - CV/FV
1 - 2 - 3 - 4 - 5

1. Circular Silencer
2. Insulation Thickness (mm) (50-100 mm)
3. Inner Diameter (mm) (100-800 mm)
4. Length (mm) (1000-1500 mm)
5. Connection Type
CV - Gasketed Connection
PV - Flanged Connection
