

## Mini Ultrasonic Humidifiers

KMB humidifiers are ideal humidifiers for humidifying air conditioning systems, fan convectors, small spaces (tobacco cabinets, etc.). The on/off is controlled by a hygrostat and the humidification capacity is Max. 0.44 kg/h.

- Potentiometer for 0-100% control
- Magnetic valve can be added to drain water

### Capacities, Electrical Specification, Dimensions and Weights

Model	Capacity (kg/h)	Voltage (V/Hz)	Electricity consumption (VA)	Weight (kg)	Dimensions H/L/W (mm)	Code
KBM	0.44	48/50	50	2	141-252-50	<b>40104811</b>
Potentiometer	For control from 0 to 100%					<b>40104812</b>
Aquadrain	Magnetic valve for draining water					<b>40104813</b>
